Volunteer Experience

Humane Society of Huron Valley - Spent time over winter break at the Humane Society of Huron Valley serving primarily as a dog-walker.

Interact Club - Interact Club was an organization offered through my highschool which coordinated volunteer opportunities for students to sign up for. Over the course of four years I participated in a total of 19 events, with some of my favorite being the Food Gatherers project and the Assisted Living home service during Thanksgiving day. Other activities included park and school clean-ups as well as small tasks around the city of Ann Arbor such as handing out water to runners of the annual "Turkey Trot" 5k run.

Mental Health Awareness Club - Participating in the Mental Health Awareness club (MHAC) at Michigan State has been one the best experiences I've had to date. Through the MHAC I have gained valuable knowledge on the ways to help individuals reach a productive solution to issues they may currently have at pace comfortable for them.
